

**SENIOR PROJECT ENGINEER
INDUSTRIAL
FULL-TIME
GENERAL CONTRACTOR
COMMERCIAL CONSTRUCTION**

R. C. Stevens Construction Company is the Southeast's construction industry leader in industrial process with specialization in food/beverage, manufacturing, healthcare, and growing government markets. Incorporating our core values of quality, innovation, and integrity in all we do, we provide design-build services, general contracting and construction management to our clients and partners. R. C. Stevens is a Cianbro Company. Cianbro is one of the highest-ranked contractors in the United States and is one of the largest open-shop, 100% employee-owned construction companies.

We are seeking an experienced, industrial and/or commercial **Senior Project Engineer** that can work with the project team to provide technical support around quality and cost controls, blueprint and contract compliance, scheduling, estimating, budgeting, documentation, and engineering means and methods on site. They must also ensure the project is constructed in a safe, ethical manner and compliant with all federal, state, and local laws.

JOB RESPONSIBILITIES

- Provide technical support around quality control, blueprint and contract compliance, scheduling, documentation, and engineering means and methods on-site
- Assist in proper project planning, value-added engineering means and methods, developing work packages and preparing production indicators/benchmarks, and developing the master schedule
- Coordinate construction activities on a project, including the estimate, start-up, costing, scheduling, demobilization, etc.
- Provide ongoing client contact to assess the progression of work and resources required to successfully complete project
- Interpret design/drawings for team members installing material
- Research and resolve drawing interpretation problems, conflicts, interferences, and errors
- Verify that all completed work complies with applicable codes, and drawings and specifications
- Maintain the project schedule and budget to aid project leadership in knowing where they are and making decisions for how to achieve project goals, with input from others
- Identify, document, and estimate costs of extra work activities, which were not anticipated in original scope and provide proper notification and financial reporting of change orders
- Assist Project Manager in other responsibilities, as required

QUALIFICATIONS/REQUIREMENTS

- Four-year engineering or construction management degree or equivalent combinations of technical training and/or related experience in industrial and/or commercial construction
- Minimum of four years of construction project management in the field
- Thorough knowledge of all aspects of construction (technology, equipment, methods): engineering, craft agreements, jurisdiction, negotiation, estimating, schedules, budget, cost controls, financial reporting, and safety required
- Excellent communication, attention to detail, and organizational skills essential
- Computer skills in word processing, spreadsheets, scheduling, and databases
- Prior understanding of Procore encouraged
- Must be willing to travel
- Drug-Free Workplace Program / Background Checks required
- A valid state driver's license and driving history that meets company standards is required
